SUMMARY

Highly skilled React.js Developer with a proven track record in implementing creative processes, innovating, and developing seamless web applications. I boast a strong command over technologies like Bootstrap, Tailwind CSS along with hands-on experience in JS frameworks such as React.js. Highly skilled Front-End Developer proficient in C, C++, and JavaScript, react.js. Specializes in creating dynamic web applications with a focus on user experience. Experienced in website development using PHP. Passionate about learning and implementing new technologies to enhance web functionality and performance.

PROFESSIONAL SKILLS

- **Programming Languages :-** PHP, C, C++, JavaScript
- **Frontend Frameworks and Libraries :-** React.js, Redux, jQuery, Tailwind CSS, Bootstrap, Laravel, Material UI
- **Markup and Styling :-** HTML, CSS
- **Database:-** MySQL, Firebase
- **Version Control :-** Git, GitHub
- **Project Management and Issue Tracking :-** Jira

INTERNSHIP

(2024 - Present)

Inbox Technology

- In this internship duration, we learn the HTML, CSS, JavaScript, React JS, database and back-end technology PHP.
- In this internship duration, we Create an Online Course Registration System to streamline the course registration process for students and administrators.

eSellerHub

15 days

- Passionate and detail-oriented frontend development enthusiast seeking an internship at E-Seller Hub to leverage hands-on experience in building responsive and user-friendly web interfaces.
- Proficient in HTML, CSS, and JavaScript for developing interactive and visually appealing user interfaces.

PROJECT

ShopCode (React JS)

- ShopCode is a full-featured e-commerce website built with React.js, offering functionalities like add to cart, product purchase, and integrated Razorpay for secure payments. It uses Firebase for user authentication, real-time database management, and hosting services.

Online Course Registration System

- The Online Course Registration System streamlines course registration for students and administrators, featuring secure user authentication for students, faculty, and admins. Students can view, register, and manage courses, while faculty can manage course details and student enrollments. Admins oversee user accounts and generate enrollment reports.
- The system supports CRUD operations, prerequisites, notifications, data validation, responsive design, security measures, and an audit trail, utilizing PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap for development.

Nest Mart (React JS)

- The Nest app is a web-based application for managing grocery products using React JS. It includes separate interfaces for admins and users. Admins can add, update, delete, and view all grocery products, while users can browse, search, and purchase products.
- The app uses React.js for the frontend and Axios for handling API requests to a backend server.

EDUCATION AND CERTIFICATION

- **Bachelor of Engineering**

Government Engineering College, Rajkot
2020 - 2024

- **Higher Secondary School**

Creative Science School
2019-2020
